

MONTGOMERY COUNTY SHERIFF'S OFFICE

Phil Plummer, Sheriff
345 West Second Street
P.O. Box 972
Dayton, OH 45422-2427

To Whom It May Concern,

The Montgomery County Sheriff's Office is pleased to be a partner with Omegaman to educate violence prevention for our community. As an organization that supports community development, I am committed to working together with other organizations in helping establish a wide array of prevention activities along the violence prevention spectrum leading to a systemic and healthier change for Montgomery County.

We are honored to have Marc Wilkes, Omegaman, in our community and in our schools to educate and provide alternate choices for the youth of all ages and situations in our community. We recognize that in addition to educating our youth and encourage them to make healthier life choices; Marc has been a leader in the field of child and youth education and motivation.

The twenty (20) schools in Montgomery County where Omegaman performed and the lives of its students greatly benefited from the **"Anti-Bullying Message,"** as well as, improved the overall life decision and choices which gives the ability of the youth of our community to have a more successful future.

As police and educators are already aware, bullying leads to violence which leads to adult incarceration. I would encourage all police agencies to bring this worthwhile program to their communities and to their schools.

Sincerely,

PHIL PLUMMER
SHERIFF
