I would like to thank Omega Man for visiting our school and teaching the students to be Dream Makers. His presentation was action-packed and full of life lessons that all the students from kindergarten through fifth grade could benefit from. He brought his anti-bullying message across with humor and strength!!

Omega Man provided a wealth of teaching resources for us to use before and after the show. As principal, I appreciated the ease of organizing the event. Omega Man is one of the best school assemblies we have had.

The best part of the presentation was watching the students who dressed up as super heroes interact with Omega Man. He was enthusiastic and spent extra time after the presentation to talk with students.

You can't go wrong with Omega Man. He was our H.E.R.O.

Sincerely

Linda Bevil  
Principal
